AmeriCorps National - Community Outreach Coordination

Community Outreach Coordination

In Community Outreach Coordination, you will be critical in helping meet our goals through planning, coordination and implementation of projects in partnership with our target communities. Your primary responsibility will be to build relationships and partner with residents, local agencies, elected officials and community stakeholders to identify areas where housing and community development solutions can intersect. This will involve regularly attending local governance, community beautification, health and social service, and resident meetings. Additionally, you will identify improvement projects, such as community clean ups, community gardens and A Brush With Kindness (ABWK) projects, etc., and engage volunteers from the local community to support these projects. Furthermore, you will help build understanding of and support for our Neighborhood Revitalization (NR) program, in addition to developing and marketing new NR programs.

What's in it for you?

At the end of the service year, you will have planned, coordinated and implemented projects in partnership with our target community, and therefore, helped our affiliate meet its goal of expanding our Neighborhood Revitalization (NR) program, which includes strategic acquisition, community collaboration, block cleanups, and neighborhood outreach and education.
