CONCRETE COMPANIES WITH SIDEWALK AND DRIVEWAY APRON EXPERIENCE

The City of Memphis requires a concrete/cement company to provide the city with a Cement Workers Bond from any insurance company. The concrete company must submit the bond to the Department of Inspection, Division of Engineering located at 2599 Avery Avenue. 901-636-2462. The Division of Engineering needs the bond in order to issue the permit.

The bond protects the homeowner. Once the sidewalk project has been completed, the city engineering department sends an inspector to the site to approve the completed work. If the work does not meet all city guidelines, the concrete company will be required to fix the problem with no additional cost to the homeowner.

Inspectors with the Division of Engineering stated the companies listed below have a reputation for following the city sidewalk guidelines:

BHS Concrete*	901-465-4337 (Kevin Baltz)
National Concrete	901-218-0272 (Edna)
Tyfoon Construction	901-483-4359 (Luther Powers)

*BHS Concrete is also known as Baltz & Sons

The concrete companies listed above are by no means a definitive list. For a comprehensive list of bonded concrete contractors, please go to:

https://www.bldgmemphis.org/assets/2075/bonded_sidewalk_contractor_list_feb_2016.pdf

To learn more about sidewalk repair visit BLDG Memphis at <https://www.bldgmemphis.org/pedestrians>. BLDG Memphis was formerly Livable Memphis.

Most concrete companies will give a discount if two or more homeowners have sidewalk work done at the same time. The discounts vary based on the amount of work to be done.
