

BACKYARD FIELD GUIDE QUEST

Make a field guide by observing, sketching and identify everything in your backyard. Your guide can include trees, plants, flowers, insects and more. Be creative and have fun! Your work will be displayed in the Texas Nature Traders building. If you would like to keep your journal, you will not receive full points.

Your field guide must include:

- Cover with a title
- Table of contents
- A page explaining the purpose of the field guide
- A brief explanation stating why careful observation is important

Each species page should include:

- Common names
- Scientific names
- Classify as native or non-native
- A hand-drawn picture
- Small description
- An interesting fact: What it eats, where it lives, etc.
