

# ROCK TEST QUEST

Next time you are outdoors exploring, search for a rock you find interesting. Research Mohs scale of hardness and learn how to conduct your own rock test. Complete the questions below.

Where is your rock on the Mohs scale of hardness?

Does it have any luster?

How does it cleave/fracture?

What is the shape of your rock?

Can you identify your rock? If yes, name your rock. If no, why are you unable to?
