

**College of Adult Professional Studies**

**Bachelor of Arts in Professional Psychology**

**Organizational Psychology**

# The College of Adult Professional Studies at Christian Brothers University is designed for you -

customized to fit your career goals and your budget. Classes are offered in a hybrid format, giving you both face-to-face interaction and online flexibility to complete your degree efficiently, and on your terms.

With experienced instructors and small class sizes, we offer you the individual attention required to develop a solid foundation for your next step.

## The Bachelor of Arts in Professional Psychology - Concentration in Organizational Psychology

will prepare you to apply the principles and science of psychology to effective human resources development and management, focusing on motivation and supervision, employee selection and development, legal considerations, and evaluation and organizational development. You will be prepared for careers in human resources as well as for the pursuit of graduate programs in psychology.

- Curriculum topics within the concentration include business law, microeconomics, macroeconomics, organization and management, international business, human resources management, marketing, and industrial and organizational psychology.
- 6 credit hours of the program can be filled with business electives based on your specific interests.
