

College of Adult Professional Studies

Bachelor of Science in Business Studies

Public Health Administration

The College of Adult Professional Studies at Christian Brothers University is designed for you -

customized to fit your career goals and your budget. Classes are offered in a hybrid format, giving you both face-to-face interaction and online flexibility to complete your degree efficiently, and on your terms.

With experienced instructors and small class sizes, we offer you the individual attention required to develop a solid foundation for your next step.

The Bachelor of Science in Business Studies – Concentration in Public Health Administration

will give you a foundation for a career in an industry that strives to keep the general public safe, healthy, and disease-free, focusing on prevention, education, surveillance, and organized responses. The program will incorporate the principles of public health, business management, and social and organization behavior.

- Curriculum topics within the concentration include public health, principles of epidemiology, health policy and management, and program planning and evaluation.
- The program allows you to pursue an elective course of your choosing to customize the degree toward your interests.
