FINGERPRINTING & BACKGROUND CHECK INSTRUCTIONS

Department of Education
Undergraduate Teacher Education Program
Master of Arts in Teaching Program
Post-Baccalaureate TEP (Licensure Only)
Master of Science in Educational Leadership (if not employed by a public school district)
Fast Track MSEL Program (Licensure Only) (if not employed by a public school district)

All applications to the Teacher Education Program complete a background check and fingerprinting in accordance to TN las 49-5-56.

The Tennessee Bureau of Investigation’s Tennessee Applicant Processing Services (TAPS) unit runs applicants’ fingerprints through a system that produces a criminal history check that is then forwarded to CBU. These background checks are fingerprint based and are run through TBI’s database as well as forwarded to the FBI for processing.

To improve the applicant scheduling process, the TBI in conjunction with L-1 Enrollment has developed a fully automated system which will enable the TBI to track printed candidates more efficiently and provide every applicant a more flexible way of being printed.

To have your fingerprints taken, contact IdentoGO services at www.identogo.com. Select Non-DCS Child Care/Adoption Providers as the Agency and Child-Related Worker (Private) as the Applicant Type. Provide CBU’s ORI# TNCC79123. Once you are fingerprinted, the information will be sent to TAPS and CBU should receive a full report in about one week.

Note: If you have already undergone this process (for example, for hire within Shelby County Schools), you must undergo the fingerprinting process again. An additional fee will be charged.
