Changes Afoot
Kay Cunningham, Library Director
(901) 321-3430 · kay.cunningham@cbu.edu

The changes hit you as you come in the door. Look down and you’ll see new gray flooring that really sets off the door mat. How many of you had even been able to see the old CBU letters on it?

Proceed into the Library proper and you’ll see even more: new carpet and flooring, new paint, rearranged furniture, and more space. We’ve compressed the Reference collection onto one side and moved the LaSallian collection to a more prominent position next to current periodicals.

A new addition is a Popular Books shelf which should make things easier if you are just looking for something entertaining or interesting to read. We’ve pulled titles—both fiction and non-fiction—from the main circulating collection upstairs and brought them to the main floor to give them more prominence. As time goes by, we will rotate books on and off the shelf. Just remember, the titles on the Popular Books shelf are only a small selection of our books. If you have suggestions for specific book titles/genres or authors, let us know.

Don’t forget to check out the New Book shelf as well where our most recently acquired titles are displayed.

Other changes are not as visible, but they’re equally important. The library has subscribed to a number of new databases, which means we have more full text, more journals, more articles—all online and accessible both on-campus and off with your CBU email login. (See page 2 for more details.)

First off, Academic Search and Business Source from EBSCO were both upgraded to their Ultimate versions. In addition to these upgrades we’ve added the Education Research Complete database. It works like Academic Search, Business Source, and our other EBSCO databases, delivering articles from journals and trade publications, conference papers, and books in the field of Education.

Another upgrade is the addition of JSTOR Sustainability to our JSTOR collections. You’ll find the new resources through any JSTOR search, or you can go to the Sustainability subject guide to link directly.

From ProQuest, we now have the SciTech Premium Collection, a conglomeration of several databases in the STEM fields. SciTech Premium Collection is now your starting place for any research in engineering, computing, technology, and the sciences.

And we have now have online access to The New York Times. See page 3 for instructions on how to set up a free account.

The staff of Plough Library wish the entire CBU community a successful and rewarding academic year. We hope you will make use of our upgraded facility and resources. Check us out!

New Databases for Everyone!
Deborah Babb, Electronic Services Librarian
(901) 321-3433 · dbabb@cbu.edu

Our newest database subscriptions have something for nearly every discipline and program of study at CBU.

**Academic Search Ultimate (EBSCO)** is a major upgrade from our previous subscription to *Academic Search Complete*. The combination of academic journals, magazines, periodicals, reports, books and videos meets the needs of scholars in virtually every discipline ranging from astronomy, anthropology, biomedicine, engineering, health, law and literacy to mathematics, pharmacology, women’s studies, zoology and more.

**Business Source Ultimate (EBSCO)** is a major upgrade, with over triple the content of our previous subscription to *Business Source Premier*. Search full text of essential journals in accounting, finance, banking, marketing, and management. In addition, users can delve into case studies, country economic reports and company profiles, as well as interviews with executives and analysts.

**Education Research Complete (EBSCO)** is an all new database covering curriculum instruction, administration, policy, funding, and related social issues. Topics include all levels of education from early childhood to higher education and all educational specialties, such as multilingual education, health education and testing. This database also includes full text for books, monographs and numerous education-related conference papers.

**JSTOR Sustainability** includes a wide range of journals, ebooks, and research reports in the field of sustainability. The subjects of resilience and sustainability are explored broadly, covering research on environmental stresses and their impact on society.

We are thrilled to announce our addition of **SciTech Premium Collection (ProQuest)**. This comprehensive STEM database will support student and faculty research in CBU’s science and engineering degree programs. It includes the following specialized collections:

- Advanced Technologies & Aerospace Collection
- Agricultural & Environmental Science Collection
- Biological Sciences Collection
- Earth, Atmospheric & Aquatic Science Collection
- Materials Science & Engineering Collection

You can search all of these collections at once through the [SciTech Premium Collection](#) link, or choose a more specific collection with a narrower focus.

---

**Library Game Night November 8**

Mark your calendars! To celebrate International Games Week, the library and the Office of Student Life are hosting a game night on Friday, November 8, from 4:30 p.m. to midnight. We like all kinds of games, so if you have favorites bring them along! There will also be student organizations sponsoring games, groups eager to introduce their games to new players—and lots of snacks and drinks!

Everyone is invited: students, faculty, families, and friends of CBU from the Memphis community. No experience required! There will be games for all ages and experience levels, and lots of people around to help explain the rules if you need a refresher.

If you have any questions, please contact Alfred Wallace at awallac6@cbu.edu.
New Reference Ebooks

Plough Library recently added dozens of new reference ebooks. You can find them through the main search box on the library’s homepage. Many are also included in the Reference and Books lists in our relevant Subject Guides.

New titles include:
- 101 Case Studies in Construction Management
- Accounting Ethics
- Applied Chemistry for Environmental Engineering
- Aquaculture: An Introductory Text
- Art Therapy Research
- Atlas of Clinically Important Fungi
- Big Digital Forensic Data
- Business of Cybersecurity
- Case Study Handbook (rev)
- Computer and Cyber Security
- Construction Project Management
- Cases on Corporate Social Responsibility and Contemporary Issues in Organizations
- Cultural Influences in Engineering Projects
- Digital Defense: A Cybersecurity Primer
- Early Christian World
- Essentials of the US Health Care System
- Everyday Ethics
- Food Health: Nutrition, Technology, and Public Health
- Forensic Social Work
- Fundamentals of Computer Graphics
- Global Justice: The Basics
- Handbook of Blockchain, Digital Finance, and Inclusion
- Fundamental Accounting
- Fundamental Math and Physics for Scientists and Engineers
- Guide for Statistics in the Behavioral Sciences
- History of Pesticides
- Intro to Work and Organizational Psychology
- Key Thinkers on the Environment
- Measurements in Distance Education
- Medical Aspects of Biological Warfare
- Microeconomics: A Critical Companion
- Mormonism: The Basics
- Organic Chemists Desk Reference
- Practical Ethics in Sport Management
- Sport Facility Operations Management
- Sports Leadership: A Concise Reference Guide
- Supply Chain Risk Management
- Survival Guide to Organic Chemistry
- Tips and Tools, a Guide to Effective Case Writing
- Understanding Statistical Error: A Primer for Biologists
- Urban Water Security
- U.S. Army Physician Assistant Handbook

The New York Times

Plough Library now provides complete access to The New York Times for all current students, faculty, and staff through a NYTimes.com Group Pass subscription. Individual registration is required.

Get a NYTimes.com Pass:
Go to libguides.cbu.edu/nyt-pass and create an account.

After registering your pass, you can go to NYTimes.com and enjoy access from any location.

View unlimited articles from 1851-1922 and 1981-present. For articles from 1923-1980, you are limited to viewing only five articles per day.

For more information, visit libguides.cbu.edu/nyt.

Student Advisory Board

You are invited to be on Plough Library’s Student Advisory Board! Its purpose is to provide a communication link between students and library staff and to act as a sounding board for proposed changes. The board also makes recommendations on how library staff can better support students.

This will be the second year of our Student Advisory Board. Last year, its members provided valuable feedback on our quiet policy, group work space, remodeling, and security cameras. Their influence will continue to be seen in changes to the library this fall.

Questions? Email Karen Brunsting at kbrunsti@cbu.edu

Instruction—
The Classroom
and Beyond
Alfred Wallace, Instruction Librarian
(901) 321-4355 · awallac6@cbu.edu

We’d like to remind our faculty that we offer a wide range of instruction services designed to help students succeed. As always, we are happy to come to your classroom for an instructional session—but what we can do goes far beyond that:

• We design Research/Subject Guides for specific courses, to list our best resources in one place;
• We have online tools, including quizzes and videos, to teach research skills through Canvas;
• We advise faculty on how to best integrate research instruction in their own teaching;
• We can arrange to meet with students one-on-one or in groups (such as for projects) to review their research strategies, and...
• ... we are always looking for new ways to help!

Please let me or any of our librarians know if you have any questions about teaching our databases, research strategies, citation management, or other aspects of “information literacy.”

New Books

Climate Change and the Health of Nations: Famines, Fevers, and the Fate of Populations
By McMichael, Woodard, Muir
New Books 304.2 M36 2017

“When we think of ‘climate change,’ we think of man-made global warming, caused by greenhouse gas emissions. But natural climate change has occurred throughout human history, and populations have had to adapt to its vicissitudes. Tony McMichael, a renowned epidemiologist and a pioneer in the field of how human health relates to climate change, is the ideal guide to this phenomenon, and in his magisterial Climate Change and the Health of Nations, he presents a sweeping and authoritative analysis of how human societies have been shaped by climate events.”

Heavy: An American Memoir
By Kiese Laymon
New Books 305.896 L39 2018

“In Heavy, Laymon writes eloquently and honestly about growing up a hard-headed black son to a complicated and brilliant black mother in Jackson, Mississippi. From his early experiences of sexual violence, to his suspension from college, to his trek to New York as a young college professor, Laymon charts his complex relationship with his family, weight, sex, gambling, and writing. By attempting to name secrets and lies he and his mother spent a lifetime avoiding, Laymon asks himself, his mother, his nation, and us to confront the terrifying possibility that few of us know how to responsibly love”

-- Provided by publisher.

Fall Fest
Swing by Plough Library’s annual Fall Fest on Tuesday, October 8th from 11 a.m. - 1 p.m. for food, fun, and free stuff. Learn all about what the library has to offer you!
