

AFTERSCHOOL PROGRAMS

Do you want to bring one of the world's best zoos to your site?

We can visit for one hour, 8-weeks, or the whole year! Our outreaches provide fun, hands-on learning based on the Nebraska state standards. These unique educational experiences are interactive, memorable and engaging for your students. All programs include Zoo artifacts such as pelts, skulls, shells, and tusks to engage the senses.

MULTIPLE VISIT PROGRAMS

Weekly visits allow your students to develop a positive personal relationship with the Zoo and build a deeper understanding of STEM concepts. These programs inspire wonder, appreciation and awareness of the natural world and encourage environmental stewardship. Students learn through games, interactive activities, STEM-based projects, and close encounters with Zoo artifacts.

- Each visit is 60 minutes.
- Cost is \$100 per visit, with a minimum of four visits to each group of students.
- **Live animal visit** once or twice per month.
- Maximum of 30 students per class grades 3-6; 20 students per class grades K-2.

Zoo Club Topics

ANIMAL EXPLORATION (GRADES K-2)

Play, literacy, and art are incorporated into developmentally appropriate lessons for early learners. A focus is placed on STEM-based projects.

HABITATS AROUND THE WORLD (GRADES 2-6)

Each week we "visit" a different biome, learn how the animals are adapted to that environment, and how they are connected to all parts of the earth.

ANIMALS AROUND THE WORLD (GRADES 2-6)

Each week we focus on a different type of animal, from big cats to tiny bugs.

ASSEMBLIES

Our assemblies provide a fun, educational and interactive program for your students and parents.

- Supplemented by a visit from two or three live animals.
- Affordably priced at \$300.
- Choose from **Zooper-Powers**, **Zoolympics** or **I ♥ Animals**.

VIRTUAL FIELD TRIPS

Live, interactive programs hosted from inside our most popular exhibits. A unique educational experience through online video conference.

Visit www.OmahaZoo.com/zoo2you for information and a list of the many topics.
