About NCHEC

The National Commission for Health Education Credentialing, Inc. (NCHEC), founded in 1988 as a non-profit, tax-exempt organization, develops and administers national competency-based examinations to entry- and advanced-level health education specialists. Additionally, it is the charge of NCHEC to develop standards for professional preparation, and promote professional development through continuing education for health education professionals. Currently, there are over 13,500 health education specialists that hold the Certified Health Education Specialist (CHES®) or Master Certified Health Education Specialist (MCHES®) credential.

Mission:

The mission of NCHEC is to enhance the professional practice of Health Education by promoting and sustaining a credentialed body of Health Education Specialists. To meet this mission, NCHEC certifies health education specialists, promotes professional development, and strengthens professional preparation and practice.

Benefits of National Certification

NCHEC's voluntary professional certification program establishes a national standard for individual health education practitioners. It is based on the Seven Areas of Responsibility; a comprehensive set of Competencies and Sub-competencies that have been verified by a job practice analysis. It differs from state and local certifications and registries in that the requirements do not vary from one locale to another. National certification benefits practitioners and the public by:

- Establishes a national standard of practice for all health education specialists
- Attests to the individual health educator's knowledge and skills
- Assists employers in identifying qualified health education practitioners
- Develops a sense of pride and accomplishment among certified health education specialists
- Promotes continued professional development for health education specialists

Please read this handbook before completing the application.

The Certified Health Education Specialist (CHES®) examination is a competency-based tool used to measure possession, application and interpretation of knowledge in the Seven Areas of Responsibility for Health Education Specialists delineated by [A Competency-Based Framework for Health Education Specialists 2015](#). The exam reflects the **entry-level Sub-competencies of these Areas of Responsibility**.

A CHES® is an individual that has:

1. Met required academic preparation qualifications
2. Successfully passed a competency-based examination administered by the National Commission for Health Education Credentialing, Inc.
3. Satisfies the continuing education requirement to maintain the national credential

Consisting of 165 multiple-choice questions (150 scored and 15 pilot tested), the CHES® examination is offered in paper-and-pencil format at college campuses throughout the United States. Candidates are allotted 3 hours to complete the examination. While there are

approximately 130 testing sites currently registered, any campus with a testing service is eligible to become a testing site.

Health Education Code of Ethics

NCHEC adheres to the Health Education Code of Ethics established by the Coalition of National Health Education Organizations (CNHEO). See <http://cnheo.org/ethics.html>

This policy serves as a central guide and reference for all Health Education Specialist in ensuring their day to day activities are in line with professional conduct and industry standards.

By applying for certification you are attesting to reviewing and abiding by the Health Education Code of Ethics.

Nondiscrimination

The National Commission for Health Education Credentialing does not discriminate against any individual on the basis of race, ethnicity, religion, sex, gender identity, age, disability, sexual orientation, status as a veteran, or other legally protected status.

Disciplinary Policy

By applying for certification or recertification, Health Education Specialists recognize the authority of NCHEC to apply the Health Education Code of Ethics to those certified. If disciplinary actions are recommended as a result of an ethics investigation, the accused will be given full due process, including an appeal.

A Certified Health Education Specialist's (CHES®) or Master Certified Health Education Specialist's (MCHES®) certification may be suspended or revoked for reason(s) deemed appropriate by NCHEC including, but not limited to, the following:

1. Falsification of the certification application
2. Falsification of any information requested by NCHEC
3. Misrepresentation of certification status
4. Cheating (or reasonable evidence of intent to cheat) on the examination
5. The conviction or plea of guilty or plea of nolo contendere to a felony in a matter related to the practice of, or qualifications for, professional activity
6. Gross negligence or willful misconduct in the performance of professional services, or other unethical or unprofessional conduct based on demonstrable, verifiable, and serious violations of the Health Education Code of Ethics

Procedures

Complaints regarding possible ethics violations of a CHES®/MCHES® must be submitted in writing to the NCHEC Executive Director. The complaint must include the accuser's name and contact information. Individuals bringing complaints are not entitled to any relief or damages by virtue of this process, although they will receive notice of the actions taken.

1. Complaints will undergo an administrative review of documentation by the Disciplinary Committee of the NCHEC Board of Commissioners within 30 days of receipt by NCHEC to

determine if the alleged action falls within the scope of disciplinary policy and warrants investigation.

2. The accused will be notified in writing of complaint within 14 days after the administrative review. Further, in the absence of unusual circumstances, the accused will receive the original complaint and documentation including the name of the accuser.
3. The accused will be given an opportunity to formally and in writing admit to or refute the accusation in 30 days from letter date, thus assuring due process in the review.
4. The investigation may require procuring additional materials and interviews with relevant people.
5. If it is determined that there was a bona fide violation of ethics, the consequences can range from a letter of reprimand with warning, requiring the accused to complete an educational intervention on ethics, suspension, or revocation of the certification. Complainant and the certificant will be notified of the final decision of the Disciplinary Committee.
6. Every effort will be made to reach a decision in a timely manner; however, extended time may be needed to ensure full due process.
7. Actions taken do not constitute enforcement of the law, although referral to appropriate federal, state, or local government agencies may be made about the conduct of the certificant in appropriate situations.
8. NCHEC will publish suspensions and revocations on the website.

All requests must be received by application final deadline.

CHES® Exam Scoring & Background:

The format of the CHES® exam will be similar to the MCHES® exam. Applicants will have three hours to complete 165 multiple choice questions (150 scored, 15 pilot-tested). The CHES® exam will be given at the same times and places as the MCHES® exam; however, 15 of the items are used as pilot items and do not contribute to the final score on each exam. Examinees are informed that there are pilot items on the exam, however, the candidate is not told which items are being piloted and which items are being scored.
