

SUMMER READING PROGRAMS 2019

All Summer Reading Programs will be available for presentation beginning May 20, 2019.

Aliens Among Us

Jelly-like skin, glowing bodies, too many legs to count! We're not talking about extraterrestrials but the aliens among us! Join us as we explain the bizarre bodies of animals right here on our own planet.

The Goldilocks Zone: It's Not Just for Bears

Thermal vents and polar ice caps may not be where you'd like to live but some animals find them to be jussstt right! The Goldilocks Zone typically applies to a planet's distance from the sun but we'll use it to explore Earth's most extreme habitats and those who live there.

Booking Information

To book a presentation or for more information, please contact the Oklahoma City Zoo's Conservation Education Department at (405) 425-0218 or email education@okc Zoo.org.

AV Needs:

Programs may utilize a Power Point presentation. We provide all equipment, but will need access to a good electrical outlet.

Length:

Presentations are 45 minutes long.

Programs:

- Are interactive
- Are educational
- Include a story
- Includes 3 live animals
