

17-10 Fair Lawn Avenue
Fair Lawn, NJ 07410

The Vision and Learning Center of Family Eyecare Associates, P.C.

A Vision Therapy and Rehabilitation Residency

Leonard J. Press, O.D., FAAO, FCOVD

Michael T. Montenare, M.A.T., O.D.

Southern College of Optometry

Current Resident: Nicole E. Kress, O.D.

Program Mission: Experience a unique opportunity to develop proficiency in pediatric optometry, developmental vision, binocular vision, and rehabilitative vision therapy.

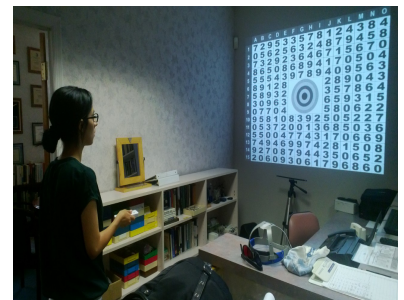

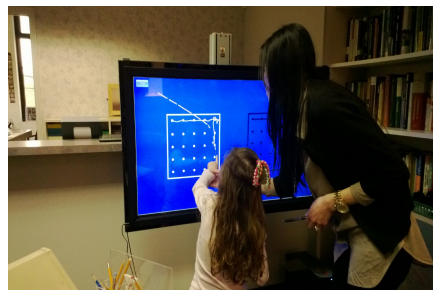

Skills Attained: Acquire the patient education and practice management skills needed to excel in a private practice environment

Patient Demographic: Participate, from start to finish, in the management of successful vision therapy cases that include, but are not limited to:

- Traumatic Brain Injuries
- Special Needs
- Post-surgical
- Basic Skills
- Strabismus/Amblyopia
- Reading Disabilities

Advanced Technology: Extend your skills in the application of emerging technology such as Visual Evoked Potentials, Sweep Visual Evoked Potentials for Infants, open view auto-refractors for accommodation, and a wide array of computerized vision therapy programs (including the Sanet Vision Integrator and Neuro-Vision Rehabilitator).
