

RN to BSN admission requirements:

- RN's may be admitted every 10 weeks at the beginning of a new module offering. Time required to progress through the program is determined by the number of pre-requisite credits needed and number of courses taken during each 10 week module. The required nursing courses may be completed in 50 weeks if all pre-requisite general education courses have been completed
- The RN must have an active unencumbered RN license.
- The RN must have graduated from an accredited Associate Degree Nursing or Diploma program.
- The RN must apply for admission to Bethel University, pay the \$30 application fee, and be accepted for admission into the university.
- The RN must complete a Department of Nursing RN-BSN application.
- The RN must submit official transcripts of all college courses taken to Bethel University Enrollment Services.
- The RN must complete all required financial aid documents based on the type of financial aid sought
