# PREMIUM DEEP FRYING OILS

America's leading deep frying oil since 1955 has a patented ultra-purification process delivering an extended fry life that saves time and money. Multiple oils provide more flavor options, versatility and performance levels.

Mazola is a brand your customers have known and trusted since 1911. Our ultra-purification process provides enhanced frying performance, and outstanding fry life. Mazola offers both a soy based and corn oil based formulation.

**ULTRA-PURIFICATION** is an additional processing step that is unique to Stratas frying oils. Combined with our Trace Metal Reduction process, it offers significant advantages over competitive oils.

- Removes impurities that cause the oil to turn dark
- Removes pro-oxidant metals
- Slows oxidation, a process which causes oil breakdown and off flavors
- Extends the oil fry life, reducing your annual oil costs

### Frymax Golden Supreme

- Leading brand since 1955
- Creamy liquid soybean oil
- Ultra-purified for longer fry life
- Light soybean flavor customers prefer

### Frymax Sun Supreme

- 100% high oleic sunflower oil
- Exceptional fry life
- Clean neutral flavor
- Non-GMO Project Verified

### Frymax Sun Classic

- Outstanding fry life
- Light, clean flavor
- High in healthy mono-unsaturated fat
- Non-GMO Project Verified
- Ultra-Purified

### Frymax Soy Supreme

- 100% high oleic soybean oil
- Enhanced performance vs. regular soybean oil
- Excellent fry life
