

Phase II Survey Questions

General Information

Organization name

Benefit / cost estimates

1. What are your main programs? If there's more than one, or if there are sub-programs, please list them all.
2. Who do the programs serve (i.e., jobless adults, kids, the homeless)?
3. What are the goals / desired outcomes of each program? How do you work to achieve them? If you have a logic model that describes how your programs achieve these goals, please share it.

Best practices

Do your programs follow a particular model or curriculum?

Is there an accrediting organization that supports best practices in your program's content area?

Measurement infrastructure

How do you use data to improve the impact of your programs? Please share specific examples.

Can you identify areas where Slingshot could help you with your measurement infrastructure? If so, explain.

Systems-level change

Beyond your direct impact on program participants, how does your program create broader systems-level change in Memphis? Please be specific. Examples could include influencing a peer or partner organization to adopt better practices, or influencing policy and regulation.

Capacity

Slingshot's impact evaluation process relies on our partners' commitment to transparency, staff time to meet, and willingness to consider the findings of the evaluation. Please indicate your capacity for the following:

Transparency: providing access to relevant financial and program data

Time: committing monthly staff time to support Slingshot's work

Action: considering ways that data analysis findings might affect your decision making
