

RiverWorks Discovery® presents:

RWD WHO WORKS THE RIVERS

A FREE CAREER EDUCATION EVENT FOR GRADES 11-12 WITH AN INTRODUCTION TO THE LOUISVILLE MARITIME COMMUNITY

DID YOU KNOW...

- There are 20 dams and 49 power generating facilities on the Ohio River!
- The Ohio River is the source of drinking water for more than three million people.
- Over 25 million people, almost 10% of the US population, live in the Ohio River Basin.
- There are over 130 species of fish in the Ohio River.

The Ohio River is 981 miles long, starting at the confluence of the Allegheny and the Monongahela Rivers in Pittsburgh, PA, and ending in Cairo, IL, where it flows into the Mississippi River. The Ohio River flows through or borders six states: Illinois, Indiana, Kentucky, Ohio, Pennsylvania, and West Virginia. In addition, water from parts of New York, Virginia, North Carolina, Tennessee and Alabama drain into tributaries that empty into the Ohio.

In Partnership with the Greater Louisville Maritime Community

STUDENTS WILL...

- Participate in a mini-career fair and meet with representatives from the maritime industry and related fields.
- Enjoy a ride and lunch on the Belle of Louisville.
- Learn about clean water initiatives with Louisville Water Company.
